STEP Ecosperity Dialogue 2018

STEP Ecosperity Dialogue 2018 (3-7 June 2018) is organised by NUS in partnership with Temasek Foundation International. STEP Ecosperity Dialogue 2018 provides a platform to connect youth leaders of tomorrow with industry experts to discuss and discover latest issues and solutions on business, sustainability, sustainable development and living. This event is a parallel track to “Ecosperity 2018” - an annual conference organized by Temasek (www.ecosperity.sg).

The theme of STEP Ecosperity Dialogue 2018 is "Tomorrow Starts Today! From Ideas to Impact" and seeks to highlight the importance of moving action towards achieving impact, as well as critical partnerships in developing solutions and advancing agenda.

Student participants from all over Asia will come together to learn and discuss issues surrounding the larger themes of "Learning to learn", "Food to nutrition" and "Healthcare to self-care", to name a few. Participants will immerse in networking opportunities with other young leaders around the region and engage in pre and post-dialogue activities to solidify their learning journey.

Exclusively for your university, we are pleased to offer fully sponsored student places for the STEP Ecosperity Dialogue 2018, to be participated by 100 youth leaders from Singapore and Asia. Round-trip airfare and local logistics such as accommodation, ground transfers, meals, training and workshops will be provided by the organisers.
